

**PREMIUM DARK RED MERANTI PRODUCTS
MILL-DIRECT SINCE 1985**

SINCE 1985, **BLUE STAR** HAS PIONEERED THE DEVELOPMENT OF IMPORTED HARDWOODS FOR DECKING, EXTERIOR, AND INTERIOR CONSTRUCTION.

Today, we remain the only fully integrated manufacturing and supply source for a complete line of tropical hardwoods - offering over 50 different products.

All Blue Star products are made with Dark Red Meranti, a globally prized tropical hardwood known for its exceptional versatility.

Ideal for both indoor and outdoor applications, Dark Red Meranti delivers the perfect balance of beauty, performance, and value:

- **Natural elegance and durability**, aging with minimal checking
- **Sustainable sourcing** from regulated forests
- **Greater workability and finish absorption** compared to ultra-dense hardwoods
- **Affordability and stable inventory** due to responsibly managed supply chain

CERTIFIED WOOD,
SUSTAINABLE FORESTRY.

WHAT SETS **BLUE STAR** APART?

Blue Star's fully integrated operation is set in Pahang, Malaysia, where **every step of production is managed in-house**—from forest to finish.

Our facility includes:

- A sawmill for primary processing
- 14 dry kilns for expert lumber drying
- A moulding factory for precision finishing, anchored by 6 Weinig moulders

Certified wood: Blue Star operates under MTCS (Malaysian Timber Certification Scheme), a PEFC endorsed certification that ensures all logs are legally sourced.

Selective Harvest: Only 1–2 trees per acre are harvested. Harvestable trees are carefully selected by government foresters based on scientific forestry principles—not commercial value.

Long Recovery Cycle: Each area is given 50 years to regenerate before harvesting can occur again.

INTEGRATED PRODUCTION,
WORLD-CLASS FACTORY.

HARDWOOD DECKING

Class A fire-rated | Factory-coated | Edge-grooved

Blue Star's full line of Dark Red Meranti decking has been our flagship program for the last 40 years. Crafted from top quality, fully PEFC-certified timber, our decking is prized for its elegance, longevity, and workability. Blue Star decking provides a high performance, sustainable, and naturally beautiful product that is sure to give you decades of pride and enjoyment.

SOLID DECKING

PROFILE: S4S/E4E; 2mm radius 4 edges

NOMINAL SIZE: 1x4, 5/4x4, 5/4x6

NET SIZE: 3/4x3-1/2, 1-1/16x3-1/2, 1-1/16x5-1/2

LENGTHS: 8' – 16' (Even lengths only),
17/18/19/20'. Specified length units available
in 8/10/12'

MOISTURE CONTENT: Kiln dried to 12%

EDGE-GROOVED DECKING

PROFILE: S4S/E4E; 2mm radius 4 edges

NOMINAL SIZE: 5/4x4, 5/4x6

NET SIZE: 1-1/16x3-1/2, 1-1/16x5-1/2

LENGTHS: 8' – 16' (Even lengths only),
17/18/19/20'

MOISTURE CONTENT: Kiln dried to 12%

BLUE STAR PLUS FACTORY-COATED DECKING

Coated with Messmer's UV PLUS for Hardwoods

PROFILE: S4S/E4E; 2mm radius 4 edges

NOMINAL SIZE: 1x4, 5/4x4, 5/4x6

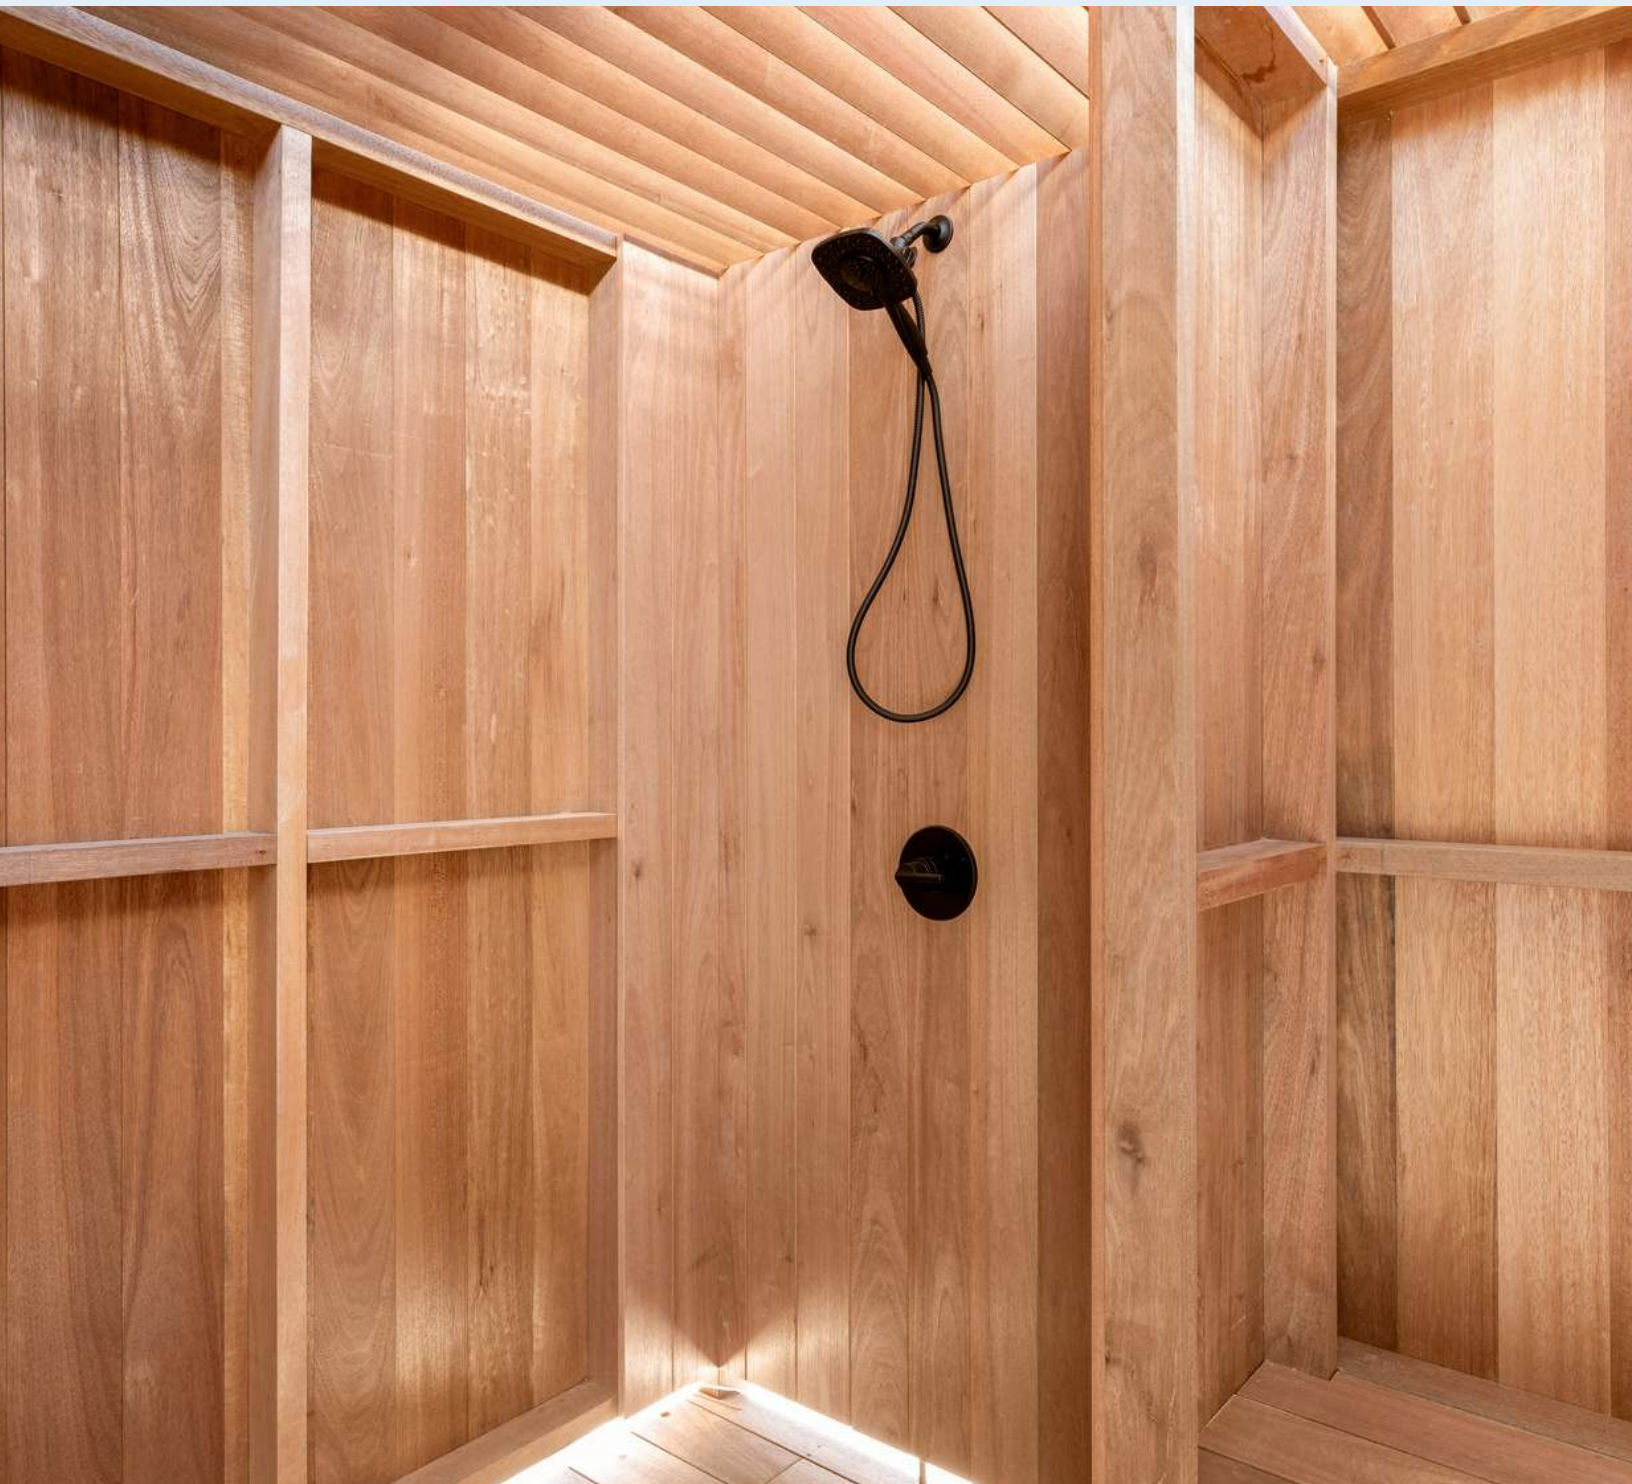

NET SIZE: 3/4x3-1/2, 1-1/16x3-1/2, 1-1/16x5-1/2

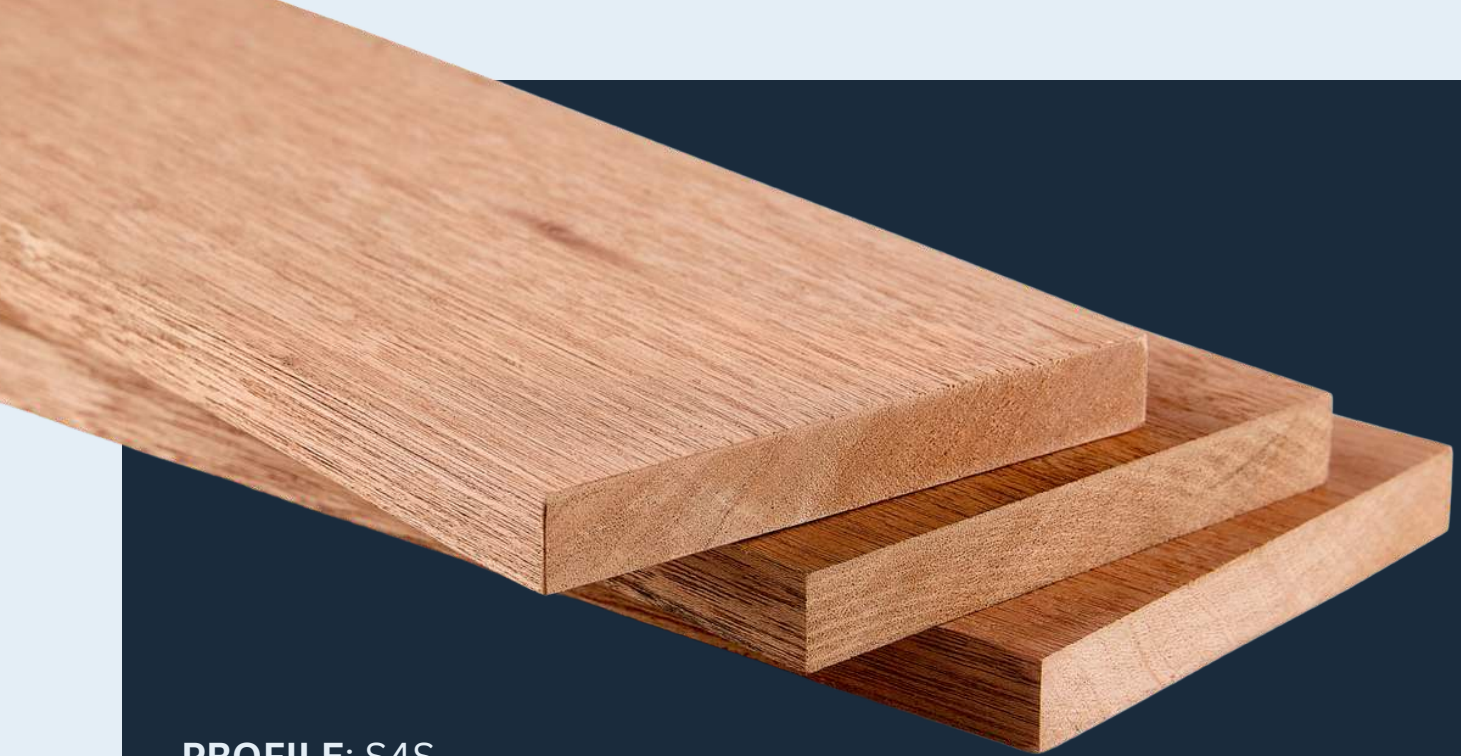

LENGTHS: 8' – 16' (Even lengths only),
17/18/19/20'

MOISTURE CONTENT: Kiln dried to 12%

S4S BOARDS

Blue Star's board program brings your woodworking vision to life. From window casings to doors, furniture to cabinetry, our boards provide the stability, workability, and natural beauty to turn exceptional designs into lasting results. Carefully dried and expertly milled, even our widest boards resist cupping and provide lasting performance that builders and homeowners can count on.

MOISTURE CONTENT: Kiln dried to 12%

LENGTHS: Lengths 8'-20', allowing maximum of 7% 6/7' trimbacks as develops. Fixed lengths of 8/10/12' available in 2x4, 2x6

NOMINAL SIZE	NET SIZE
1 x 4	$\frac{3}{4}$ x 3-1/2
1 x 6	$\frac{3}{4}$ x 5-1/2
1 x 8	$\frac{3}{4}$ x 7-1/4
1 x 10	$\frac{3}{4}$ x 9-1/4
1 x 12	$\frac{3}{4}$ x 11-1/4
5/4 x 8	1-1/16 x 7-1/4
5/4 x 10	1-1/16 x 9-1/4
5/4 x 12	1-1/16 x 11-1/4
2 x 4	1-11/16 x 3-1/2
2 x 6	1-11/16 x 5-1/2
2 x 8	1-11/16 x 7-1/4
2 x 10	1-11/16 x 9-1/4
2 x 12	1-11/16 x 11-1/4

PATTERNS

Blue Star pattern stock brings elegance and performance to your siding, soffit, paneling, ceiling, and porch. We make edge and center bead, reversible tongue and groove, and nickel gap patterns built to last for countless applications.

EDGE AND CENTER BEAD

MULTI-USE: paneling, siding, wainscot, and ceiling.

PROFILE:

- 1x4 Reversible profile. One face has an edge bead and a center bead, with v-joint. The opposite face has an edge bead, and v-edges.
- 1x6 Reversible profile. One face has an edge bead and a center bead, with v-joint. The opposite face has v-edges (no edge, or center bead).

NOMINAL SIZE: 1x4, 1x6

NET SIZE: 9/16x3-5/16, 3/4x5-1/2

LENGTHS: 8'-20', allowing maximum 7% 6/7' trimbacks, as develops. 12' average length

MOISTURE CONTENT: Kiln dried to 12%

REVERSIBLE TONGUE AND GROOVE

MULTI-USE: ceiling, soffit, paneling, siding. 1x4 also used for porch flooring.

PROFILE: WR-166/WP-4. Reversible, tongue and groove with v-joint one face, square edge one face.

NOMINAL SIZE: 1x4, 1x6

NET SIZE: 3/4x3-1/2, 3/4x5-1/2

LENGTHS: 8'-20', allowing maximum of 7% 6/7' trimbacks as develops. 12' average length. Specified lengths 6/7/8/10/12' available (1x4 only).

MOISTURE CONTENT: Kiln dried to 12%

5/4 x 4 TONGUE AND GROOVE PORCH FLOORING

PROFILE: Square edge both sides

NOMINAL SIZE: 5/4x4

NET SIZE: 1-1/16x3-1/2

LENGTHS: 8'-20', allowing maximum of 7% 6/7' trimbacks, as develops. 12' average length. Specified length units available in 7/8/10/12'.

MOISTURE CONTENT: Kiln dried to 12%

NICKEL GAP TONGUE AND GROOVE

PROFILE: square edge one face, nickel gap one face.

NOMINAL SIZE: 1x6

NET SIZE: 3/4x5-1/2

LENGTHS: 8'-20', allowing maximum of 7% 6/7' trimbacks, as develops. 12' average length.

MOISTURE CONTENT: Kiln dried to 12%

ACCESSORIES

Blue Star accessories provide the finishing touch that brings your porch or decking project to life—adding both character and performance. From our industry-leading posts to every detail piece, each product is crafted from premium timber, patiently kiln-dried, and precision machined for unmatched quality. The result is accessories that don't just complete your project—they elevate it.
